

QAT Summary

Where are we ?

- Status of Ports QA
 - Exp-runs/Pointyhat, Ports QAT, Redports, INDEX checker, portscout, distfile checker
- Status of Source QA
 - Tinderbox
 - Covertiy / LLVM static analyzer
- Doc QA
 - xsltproc, spellcheck, lint, linkchecker
- Snapshots (allbsd.org)

Plans

- Ports : portbuild2 to replace pointyhat and redports code
- Source : tinderbox with incremental builds, regression test cleanup
- Docs : better community integration
